

Documentation:Eduline WordPress Theme

Install **Eduline** WordPress Theme within a few minutes.

Why Choose Us?

Mauris at varius orci. Vestibulum interdum felis eu nisl pulvinar, quis ultricies nibh. Sed ultricies ante vitae laoreet sagittis. In pellentesque viverra purus.

Eduline is a simple, clean, responsive and user-friendly education WordPress theme specially designed for university, school, college or other educational institutions. The Eduline theme has powerful theme customization options such as custom header settings, logo, custom menu, social icons, featured slider, courses and more. It makes your website more engaging and informative.

Required plugins:-

1. Contact Form 7(<https://wordpress.org/plugins/contact-form-7/>)
2. Newsletter Plugins(<https://wordpress.org/plugins/newsletter/>)
3. One Click Demo Import (<https://wordpress.org/plugins/one-click-demo-import/>)

Eduline documentation: How to start?

This documentation will show you step by step how to complete the basic configuration of **Eduline**. It is important that you follow these steps carefully because some steps build up on each other and that will help you a great deal to set up your website properly:

1. How to set up a static front page in WordPress?
2. How to upload, install and activate Eduline?
3. What is page and how to create it?
4. What is category and how to create it?
5. How to create menus?
6. How & where to place widgets on your website?
7. How to create posts?
8. How to add logo and site title/tagline?
9. How to adjust options & layout?

1 – How to set up a static front page in WordPress?

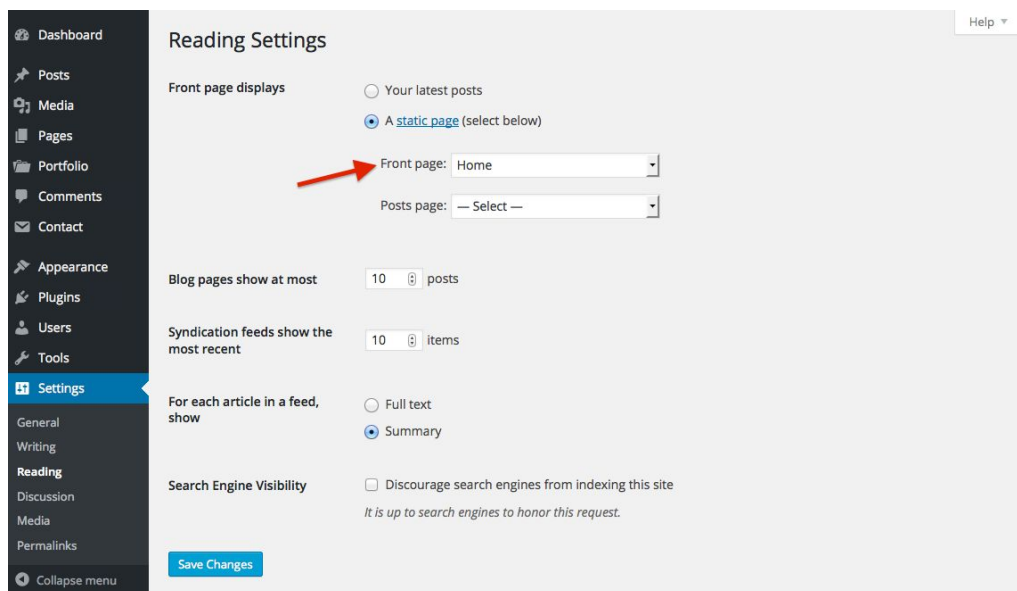

In order to create a **Eduline** like front page like shown in the theme demos for [Eduline](#),

- First to create new page named Home(or else) .
- Select Homepage template for your just newly created page under Page Attributes on the right side.
- Finally, publish this page.

- Second, go to **Settings => Reading** in your WordPress dashboard.
- Select A static page and select your just created new page Home as *Front page*.

Note:- Don't forget to save your changes

2 – How to upload, install and activate Eduline?

From WordPress Dashboard

- Login to Wordpress admin panel
- Go to > **Appearance > Themes**
- Click in **add New >Upload eduline.zip file > Install Now**
- **Activate the theme**

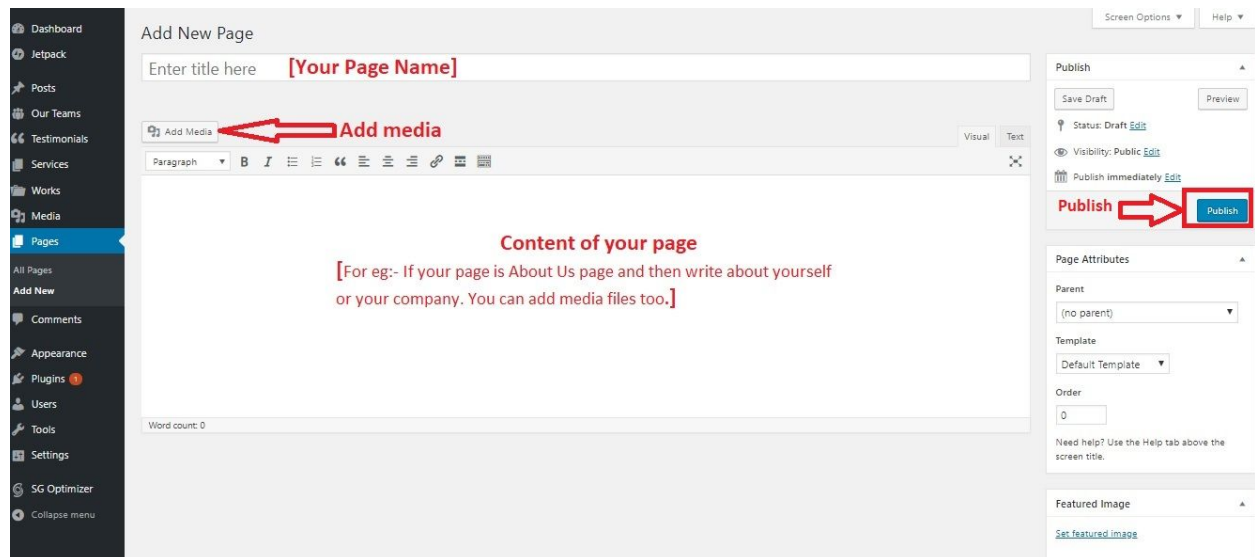

After installing the theme, now you can customize your website as per your preference.

3 –What is page and how to create it?

Pages are static and are not listed by date. Pages do not use tags or categories. An about page is the classic example. Pages can be displayed in the sidebar using the Pages widget, and some themes display pages in the navigation at the top of the site.

-To create page

- Go to dashboard
- Click in **Pages > Add New > Follow instructions as below**

- After adding all content, you can publish your page and create necessary pages by same method.

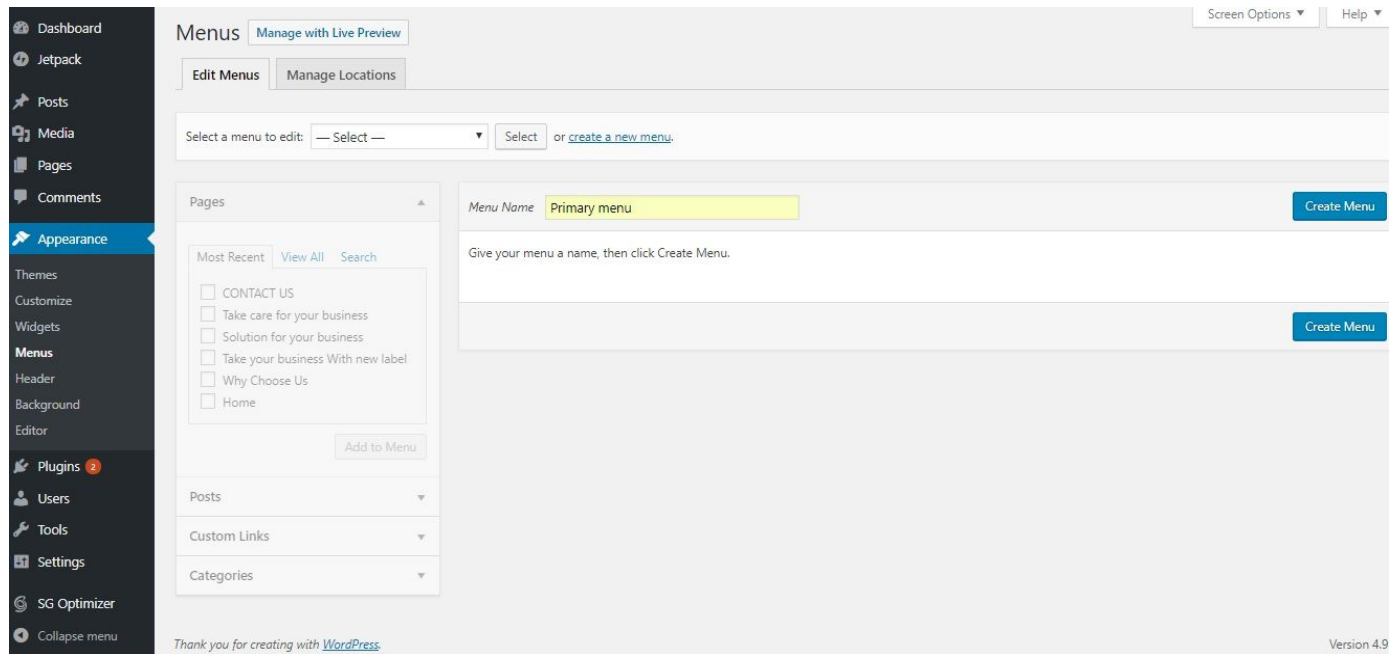

4 – What is category and how to create it?

Categories provide a helpful way to group related posts together, and to quickly tell readers what a post is about. Categories also make it easier for people to find your content. Categories are similar to, but broader than, tags.

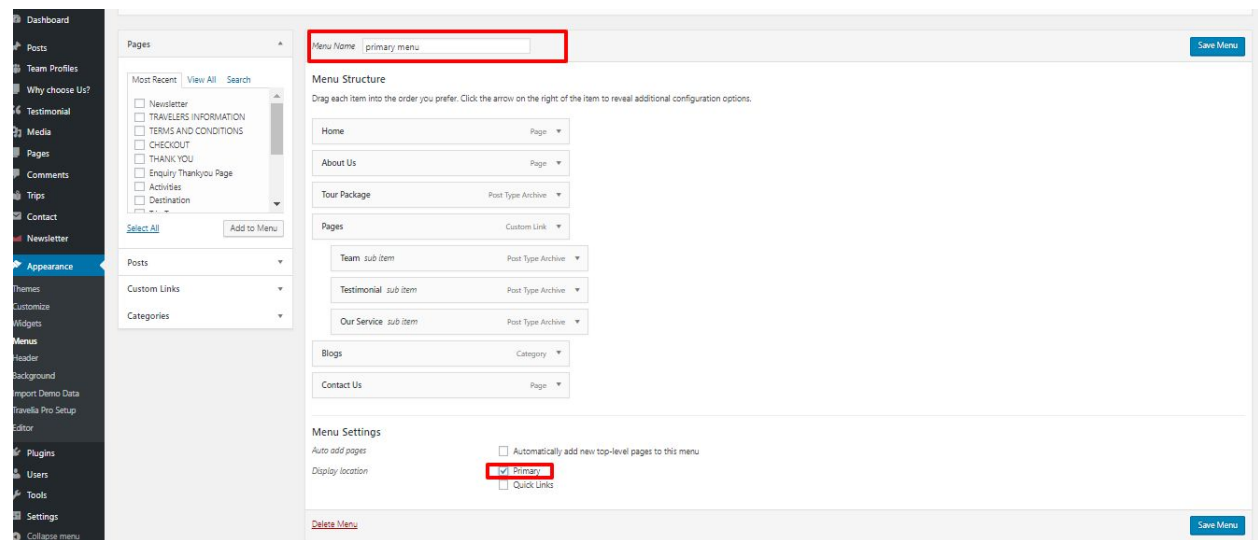

How to create categories

- Go to dashboard
- Click in **Posts > Categories**

- **Appearance => Menus**(We **RECOMMENDED** this Option for creating menus.)

- Create **New Menu** [You need to create only one menu]
- Give name of the menu[For eg. Primary Menu] > **Create Menu**

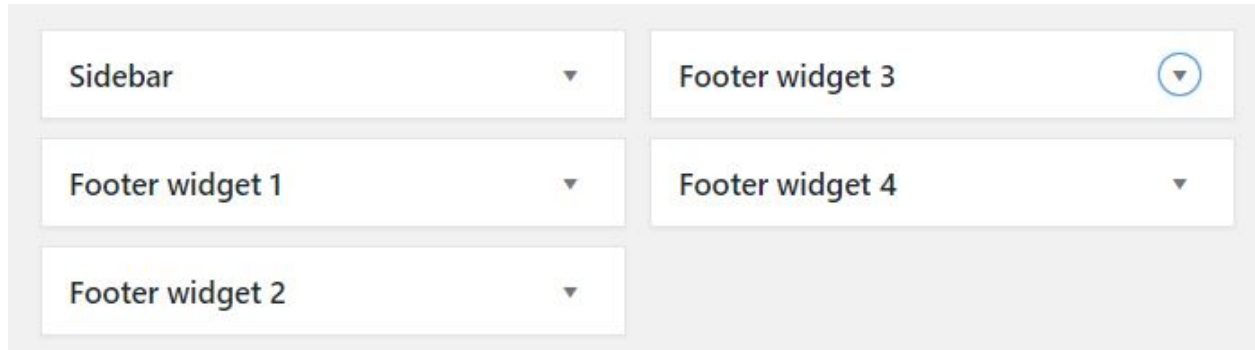

6 - How & where to place widgets on your website?

In this important step, we will show you where and how to place widgets. You can place widgets either through two ways:-

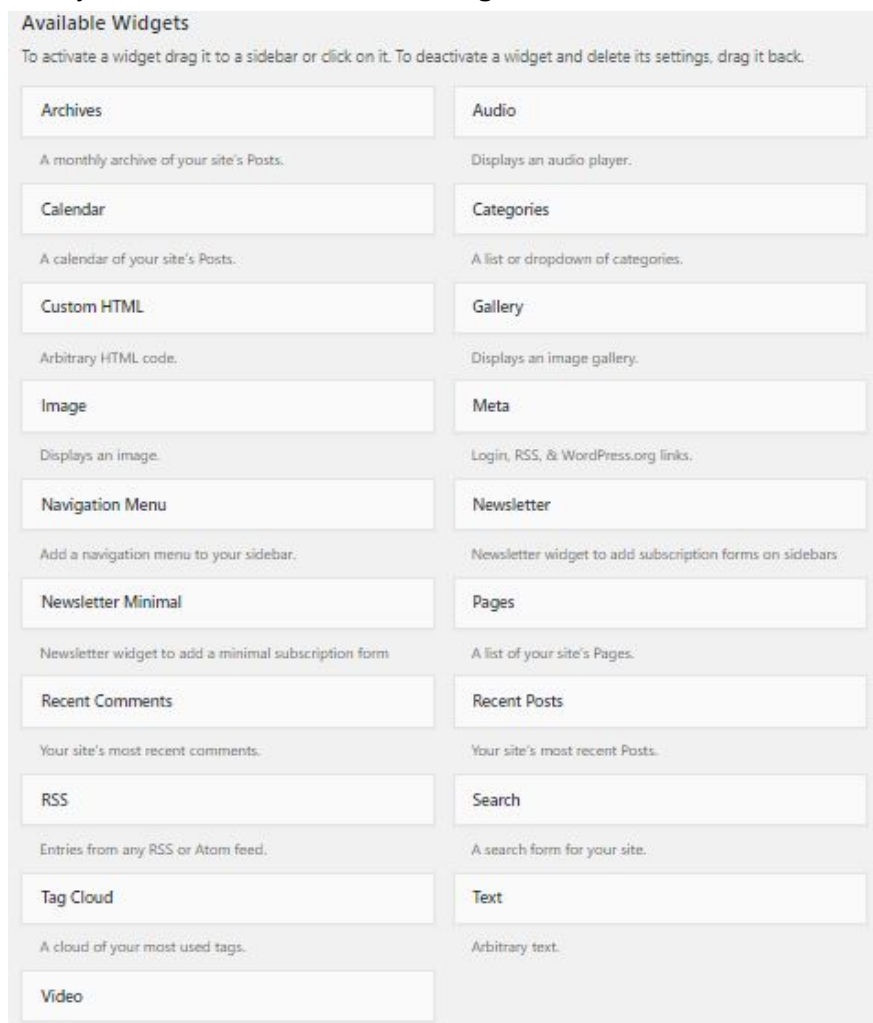

- **Appearance => Widgets**
- **Appearance => Customize => Widgets**

Note:- Widgets can be placed simply via drag and drop, so just pull your favored widget to the widget area you like.

Our registered widgets:-

Here you can see the **Available widgets** areas of **EduLine** WordPress Theme.

7 - How to create posts?

Now after all set, you can start writing your post. Follow these steps

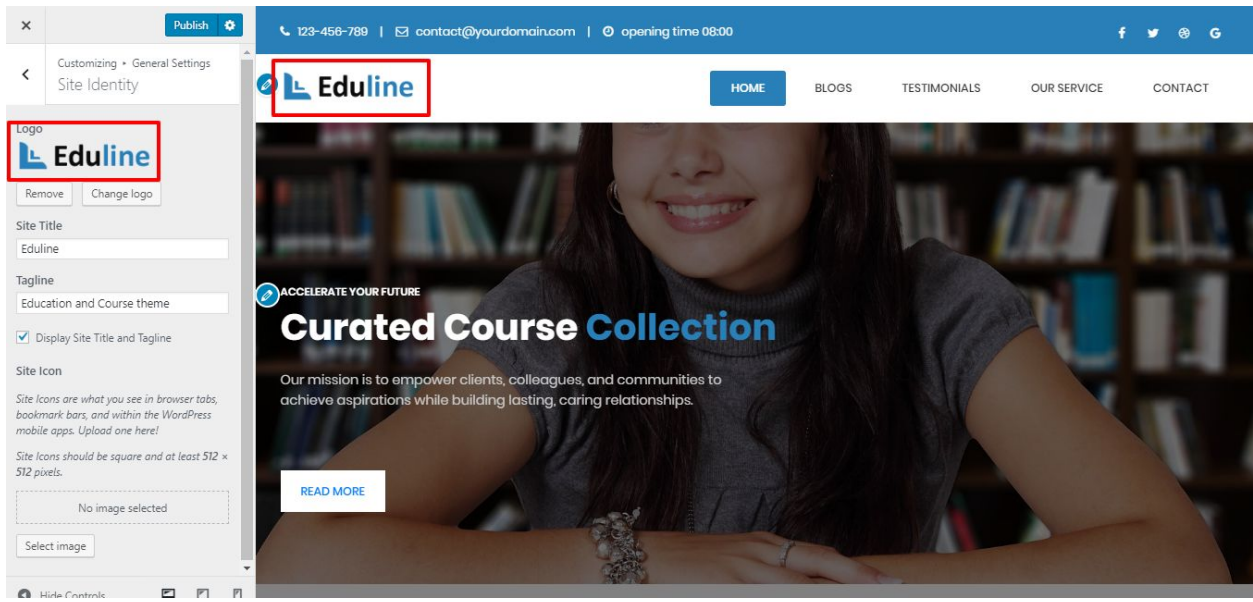

- Go to dashboard > **Posts** > **Add New**

The screenshot shows the WordPress 'Add New Post' interface. The main content area is a large text box with the placeholder text 'Body of your post goes here' and 'You can add media files from the Add media options'. To the right of the text box is a sidebar with several sections: 'Publish' (containing 'Save Draft', 'Preview', 'Status: Draft', 'Visibility: Public', and 'Publish immediately'), 'Categories' (with a list of categories: Article, Entertainment, News, Uncategorized), 'Tags' (with a text input field and an 'Add' button), and 'Featured Image' (with a 'Set featured image' link). Red annotations with arrows point to specific elements: 'Choose categories' points to the 'Categories' section, 'Include 2/3 tags' points to the 'Tags' input field, and 'Upload Featured Image' points to the 'Featured Image' section.

- Finally, click in publish Button. You can preview your post before actually publish it just make sure everything is ok. If you have not completed writing your post then you can save it as draft.

8- How to add logo and site title/tagline?

With **EduLine** ,you may customize your logo and site title/tagline in many different ways. To upload a logo and display/hide the site title and tagline, you can navigate to **Appearance => Customize => General Settings => Site Identity** and apply your changes based on your personal requirements.

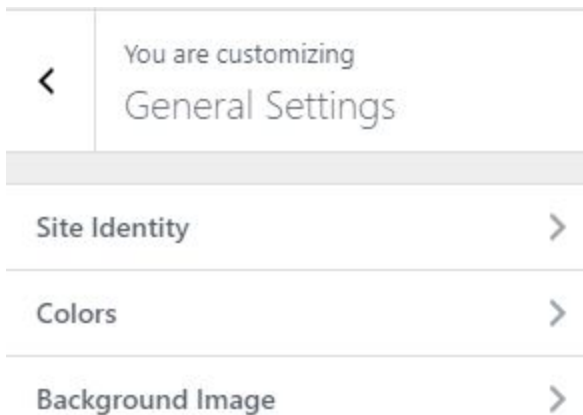

9- How to adjust options & layout?

After you have carefully followed the previous steps, you have successfully completed the basic configuration of the theme. You can now further customize and manage the appearance of your website via the extensive options panel of **Eduline**.

Please navigate to **Appearance => Customize** in your WordPress Dashboard to see the **General Settings, Header Settings, Frontpage Settings, Footer Settings, Page Template Settings** etc panel within the WordPress customizer.

9.4 - Footer Settings

In **Footer Settings**, we have following sections:-

You are customizing
Footer Settings

Footer Social Media Section >

To Setting this options, follow these steps:-

- Go to **Dashboard, Appearance => Customize => Footer Settings**
- Open each section and start to set content and filled up fields as per your requirement.

9.4.1 Footer Bottom Section

To Setting Footer Bottom section of theme. Follow these steps:-

- Go to **Dashboard , Appearance => Customize => Footer Settings => Footer Social Media Section**

The screenshot shows the 'Footer Social Media Section' in the WordPress Customizer. At the top, there's a breadcrumb trail: 'Customizing > Footer Settings > Footer Social Media Sec...'. Below this, a message states: 'Managed the content display at Footer Social media section.' There is a checked checkbox for 'Social Links' with the description 'Enable/Disable social links in Footer.' Under the 'Social Links' heading, there are four social link entries. The first entry is for Facebook, showing the URL 'http://facebook.com', the 'Font Awesome Icon' 'fa fa-facebook' (with an example 'fa fa-facebook'), and the 'Link' 'http://facebook.com'. Below the first entry is a 'Remove' link. The other three entries are for Twitter ('http://twitter.com'), Dribbble ('http://dribbble.com'), and Google ('https://www.google.com/'). At the bottom, there is an 'Add new social' button.

- Finally, click on publish button.

9.5 - Page Template Settings

In **Page Template Settings**, we have following sections:-

The screenshot shows the 'Page Template Settings' section in the WordPress Customizer. It has a breadcrumb trail: 'You are customizing > Page Template Settings'. Below this, there is a section for 'Contact Page' with a right-pointing arrow, indicating it is the active template.

To Setting this options, follow these steps:-

- Go to **Dashboard, Appearance => Customize => Page Template Settings**
- Open each section and start to set content and filled up fields as per your requirement.

9.5.1 Contact Page

To Setting Contact Page of theme. Follow these steps:-

- Go to **Dashboard , Appearance => Customize => Page Template Settings => Contact Page**

The screenshot shows the 'Contact Page' settings in the WordPress Customizer. At the top, a breadcrumb trail reads 'Customizing > Page Template Settings > Contact Page'. Below this, a message states 'Managed the content display at contact page.' The main settings are organized into sections: 1. 'Select Page for Contact Page title and description' with a dropdown menu set to 'Contact info'. 2. 'Type Contact Page Quotes' with an example 'Eg:- "Build your Bright Future at Edugrade, Get in Touch, minim veniam, We would love to help you!"' and a text input field containing '"Build your Bright Future at Edugrade, Get in Touc'. 3. Another 'Type Contact Page Quotes' section with an example 'Eg:- Get In Touch' and a text input field containing 'Get In Touch'. 4. 'Type Main Address' with an example 'Eg:- Street # 75, Borne Block, 5th Avenue, West Road, NY.' and a text input field containing 'Street # 75, Borne Block, 5th Avenue, West Road, I'. 5. 'Type Phone Number' with an example 'Eg:- (800) 457 392' and a text input field containing '(800) 457 392'. 6. 'Type Email Address' with an example 'Eg:- info.demo@email.com' and a text input field containing 'info.demo@email.com'. 7. 'Contact Form Section Use Shortcode' with an example 'eg [contact-form-7 id="108" title="Contact form 1"]' and a text input field containing '[contact-form-7 id="6" title="Contact form 1"]'. 8. 'Social Links' section containing: a dropdown menu set to 'http://facebook.com', a 'Font Awesome Icon' section with an example 'fa fa-facebook' and a text input field containing 'fa fa-facebook', a 'Link' section with an example 'http://facebook.com' and a text input field containing 'http://facebook.com', and a 'Remove' link. Below this are three more dropdown menus for 'http://twitter.com', 'https://dribbble.com/', and 'https://www.google.com/'. At the bottom is an 'Add new social' button.

- Finally, click on publish button.
